### CAUTION REQUIRED IN HANDLING THRESHERS

The American Thresherman recently related some stories of "accidents" that need not have happened if the persons injured had not been foolhardy. Sometimes it is as important to warn young machinists and others working around machinery of the "danger lurking near," as it is to instruct them regarding the operation of a separator or an engine. One of the stories is both interesting and seasonable. It headed some readers may avoid being maimed for life.

"While I was threshing some years

ago I became the partner of a young man who had gained considerable machine experience, but who was careless. He would reach through between belts while the machine was in motion, even when it was not necessary. I warned him repeatedly, but he paid little attention to me. One day while we were threshing, the box on the belt side of the fan jarred loose. I was pitching at the time. Hearing the noise I looked up.

"My partner was walking towards the loose box with a wrench in his hand. I turned my back to the machine as I knew that something would happen. I had no more than turned around when I heard the wrench go into the box. I looked up to see my partner standing there holding his hand with a look of great pain in his face. Fortunately there were no bones broken, but he was laid up for some time with a badly bruised and sprained hand. He learned his lesson at a cheap price, as he might have lost an arm."

It is much better to shut down for a few minutes than to take such risks.

### A WORLD OF CHANGE

When the mother of Queen Victoria hurried home to England in the spring of 1819, so that the heir to the throne she was expecting might be born on British soil, she travelled by stage-coach and made about the same rate of speed as Julius Caesar had made in his journey from Rome to Gaul, nineteen centuries before. When the Princess Victoria was six years of age, George Stephenson ran his first train over the Stockton and Darlington railroad, and, on favorable parts of the line, attained the dizzy speed of fifteen miles per hour. A new age had dawned.

Queen Victoria, during her long life, rode frequently on railroads. This was necessary for long journeys. On ordinary occasions she liked to be about in a little wicker donkey car. It is not recorded that she ever entered an automobile. The motor vehicle was very much in the experimental stage in the last years of her reign and was regarded as a very dangerous affair.

Even in King Edward's reign, the motor car was somewhat of a novelty, and when the King took his first ride in one and was slowly and carefully driven about, the newspapers made a great deal of the incident, and printed the story with big headlines. From the crude affair of the early days of the century, the motor car has developed into a mobile machine which can attain the speed of an express train. One sees motor cars in Vancouver running thirty-five to forty miles an hour every day, and even fifty miles is not unattainable with safety at times.

King Edward's grandsons can ride in these swift-moving vehicles, and do. But for one of them, seemingly, they do not move fast enough. The Prince of Wales, it is reported, is using an airplane to get about from place to place, and such has been the development of air travel in recent years that the royal passenger is carried in perfect safety and in comfort. It is only a little over a century since

the Prince's great-grandmother made her stage coach journey. But in that century, what a world of change!—Vancouver Province.

### SAFETY PRINCIPLES

It was an opportune address that was delivered the other evening over the radio by Mr. R. T. Stapells, President of the Ontario Motor League. Speaking on behalf of the Ontario Highways Safety Committee, Mr. Stapells presented some startling facts regarding motor accidents that should impress themselves on the mind of every man who owns and drives a car. Coming from the President of the Motor League, the facts and warnings set forth carry an added significance. His words to drivers are worthy of emphasis. He said: May I make a special point of asking you to remember that you, as a driver, have no right on the highway that is not possessed in equal measure by every other driver, whether in the same or the opposite line of traffic. It is the people who try to take to themselves—at the expense of others, of course—rights that they do not possess who will be the cause of most of the accidents newspapers will report.

There are twelve "don'ts" that the President of the Motor League stressed that every driver of an automobile should lay in his memory and write on the tables of his heart. These are:

1. Don't assume that kiddies will stay on the sidewalk. They must be your special care first, last and always.
2. Don't ignore the pedestrian's rights. He also pays taxes.
3. Don't sit like a bump on a log. Give signals and let the other fellow know what you are doing.
4. Don't be a swivel-neck driver. Keep your eyes on the road.
5. Don't dawdle on the way. This is the twentieth century, not the Dark Ages.
6. Don't exceed the speed limit. Use ordinary every day horse sense.
7. Don't cut in—it may be smart but it is not safe.

8. Don't demand your right of way. Allow a margin of courtesy for safety's sake.
9. Don't use glare lights. It is against the law, vulgar and dangerous.
10. Don't neglect your brakes. You may save a life by stopping quickly.
11. Don't take a chance at railway crossings. It might be your last.
12. Don't drive with a drunken man at the wheel. Solomon saw it coming and said: "The companion of fools will be destroyed."

It is being continually stated that the terrible death toll each week-end throughout the summer months must be reduced, but the only way that this can be done is to deal sternly with irresponsible drivers, and to inculcate in all others such principles of safety as Mr. Stapells has outlined. His address over the radio should do a great deal of good.

### DIRT AND DISEASE

There has always been an association between dirt and disease. In their earliest days, health departments were occupied in cleaning up the towns and cities because it was believed that disease was bred in dirt.

We have learned that there is a great difference in the various kinds of dirt. The only dirt that is dangerous is that which is contaminated by secretions of the human or animal body. The reason for this is that the body secretions carry away from the body the disease germs which are present in it.

Tin cans are unsightly, but tin cans are not in themselves going to cause disease. Potatoes or apples, in rotting, give off an offensive smell, but bad smells do not cause any disease. The clean person, the one who covers his cough and sneezes with a handkerchief, who keeps flies out of his home, who washes his hands before he eats, is not going to live in a dirty, untidy place. The clean person gets rid of dangerous dirt when he gets rid of all dirt. That is why, generally speaking, health and cleanliness go hand in hand.

Because a clean city or town, by caring for all dirt, makes sure that dangerous dirt is disposed of, because

clean surroundings are a stimulant to personal cleanliness and orderliness, and because cleanliness makes for more comfortable and happier lives all efforts towards securing and keeping a city or town clean are to be commended and should be supported.

Questions concerning Health, addressed to the Canadian Medical Association, 184, College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

### COMMUNICATION

"We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor of The Times:

Dear Sir:—  
I regret a declaration of a Montreal alderman that "a number of girls of good families have been found in dives; and that the evil arises from blue-plaid interference," is drawn in the WCTU notes which appeared in a recent issue of your paper—that these deplorable conditions are due to the present liquor policy, and that a return to Prohibition would remedy matters.

The truth is diametrically opposed to such a theory, as witness the following which is taken from the New York "Evening World": "The report of the committee of fourteen presents a striking indictment of the effects of

Prohibition on vice in New York—as elsewhere. "The commonplace drinking in colleges, the increased drinking on social occasions, the enormous increase of heavy drinking among women who drink little or not at all before Prohibition, are well known. Naturally the speakeasy and the worse type of night-club run true to the spirit of the times which was born in the foolish attempt to force upon millions of people a law which runs counter to human nature. It is through just such reports as these that the friends of temperance and decency will ultimately be forced to the conclusion that some better way than Prohibition must be found to get at the evils of intemperance. The realities and human nature can not be forever ignored."

Fortunately, in Canada, the majority of the people realised the truth of these sentiments and acted accordingly. It is but the few among us who now continue to bark up the wilted prohibition tree which could not flourish in an atmosphere of Canadian common-sense.

Yours sincerely,  
J. H. HODSON.

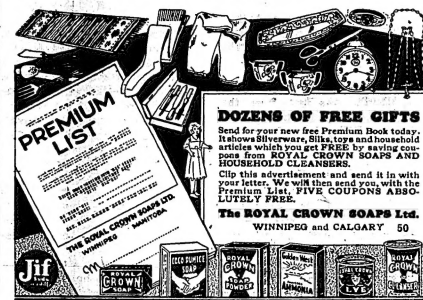

### THE HUNGRY MAN

(Walt Mason)

When I was toiling on a farm the dinner horn possessed a charm no other ever had; at noon I heard its steady voice; it made my heart within rejoice, it made my spirit glad. There were some seven hungry hands who filled the farmer's fertile lands, at fifteen bucks and board; and when the horn sent forth its din, these merry men went rushing in, they yammered and they roared. About the table then we sat, each eating like an acrobat, none wasting any words; our energies were all expended in eating all that we could hold of roasts and stews and birds. The women of the household packed great platters with the victuals stacked in most alluring piles; and it was wonderful and weird, the way those viands disappeared—I think of it with smiles. The habits of our youth are strong; however

cleanly, coarse and wrong; they stick to us like glue; and now, when I confront a steak, I have to use the service brake, as I begin to chew. My boon companions nowadays are mostly cultured, gilded jays, well versed in etiquette; a solemn function is their meal; they eat not with such frantic zeal as would produce a sweat. With conversation most absturb, between the soup and roasted goose they while an hour away; between the salad and the pie they deal in comment and reply, and spend a half a day. I try to dawdle with the rest, I deal in repartee and jest, and try to look refined; but now and then I lose my grip, forget myself and manly slip to habits left behind. My neighbors wonder what it means when I consume the pork and beans as Dr. Johnson did; one exhibition will suffice. I seldom am invited twice, when I've removed the lid.

## SMOOTHNESS and ENDURANCE

never before known at the price

The Pontiac Six—Body by Fisher

WITH its sound basic design and its background of scientific development on General Motors Proving Ground—with its production advantages provided by the vast facilities of General Motors with its score of engineering advancements, including the famous G-M-R cylinder head—

—Pontiac Six offers a combination of smooth six-cylinder performance and high-speed endurance, the equal of which is found in no other car in the world selling for so low a price.

Its smooth, silent performance, combined with the beauty and luxury of its Fisher bodies, provides a measure of owner satisfaction unequalled in its field. And its tremendous endurance results in unparalleled length of life, which in turn, is expressed in consistently high resale value.

More important reasons\* for the selection of any car have never been found. That's why ever-increasing thousands are choosing the Pontiac Six.

\* why Pontiac sales for 1928 are far ahead of previous records.

## High Prices Are Often Imaginary

(By Betty Barclay)

The average woman falls to appreciate the fact that many foods looked upon at certain seasons as expensive are really reasonable in price and sometimes actually cheap.

Price is only relative, and we should remember this when we are marketing. If we don't we are likely to fall off on a tangent and come home without some of the things we need, bringing in their places certain foods that we are at present eating too freely.

Let us take oranges and the present time to prove our point. This fruit is selling today as rather high. Probably here and there a woman is buying in smaller quantities or not at all, waiting for the price to come down to last year's level. Is she acting wisely or even intelligently when she takes this stand?

Five cents for an orange may appear high for the woman who purchased oranges last year for thirty or forty cents a dozen. But how about figuring upon the size before deciding that the price is too high. We do not hesitate to pay five cents for a very small portion of butter, beefsteak or walnut meat—and we are so accustomed to paying from sixty to a dollar a pound for such foods that we hardly think of the price. Place an orange beside five cents' worth of porterhouse steak, or five cents' worth of many of our other staples, and we will see that even at sixty cents a dozen oranges are not particularly high.

Or figure this so-called high price of ours by the pound. Oranges selling at sixty cents a dozen, probably averaging about three to the pound—bringing our price per pound down to fifteen cents.

This is interesting, isn't it? Here we have paid sixty cents for butter when it is not particularly plentiful, every year since we first started to market—and we rarely complained. We pay forty, fifty, sixty or even seventy cents a pound for meat—and still we keep comparatively quiet. But when we are paying fifteen cents a pound for oranges we begin to shout "expensive."

Price is merely relative. Instead of paying a high price for oranges today we are really paying a price that is a little higher than a very cheap price paid when the crop was much heavier and the demand not so great.

No! There is no argument by bringing up the fact that sixty cent meat is "natural" because it comes from the middle west and it takes a steer a long time to go from calldom to beefdom. Your breakfast orange probably comes from California, from a tree

## GILLEX

SOFTENS WATER  
Use it for all  
CLEANING  
AND  
WASHING

that has been growing for years before the steer's mother was born.

We merely get into a rut by comparing prices when they are high with prices when they are low, and not realizing that climate, crop, rainfall, packing, selection of quality fruit, and a dozen and one other things enter into the high price that may prevail at a certain time.

To a great extent we should forget price and think more of health. The minute we do this, we will be able to save enough on foods that we are now eating too heavily, to purchase all we need of the foods that we should eat more than we do now.

Most of us eat too heavily of carbohydrate and protein foods that have an acid reaction in the stomach, and not heavily enough of fresh fruit and green vegetables—particularly the leafy vegetable. See to it therefore that expensive carbohydrates and proteins are purchased in less quantity—and with the money saved you can purchase more liberally of the desirable balancing foods, even though they may be selling at a little higher figure than they were a month or a year ago.

See to it that you eat heavily of green vegetables and fresh fruits of all kinds. Drink milk if you like it. Drink lemonade when thirsty and help to reduce the acidity of your body—for strange as it may seem, lemons like oranges have a decided alkaline effect when taken into the system. Drink plenty of pure cold water. Eat salads, fruit cups, light desserts. Sleep. Exercise.

Do these things and you need not worry about the high price of some special fruit or vegetable. You will save enough on other things to continue your use of the food that improves your health. If you don't you'll surely save more than enough by the elimination of doctor's bills.

Food is expensive when you do not get enough of it or when you eat it too heavily. Don't worry overmuch about the price you pay. One food, low in price, may be very expensive if it causes internal trouble. Expensive oranges are cheap if they counteract the acidity of the body and bring relief. Price is only relative and women should remember this when they shop.

W. C. T. U.

In the Presidential election now getting into full swing the U.S. the prohibition question promises a lively issue. Dr. Mullins, immediate past president of the Baptist World Alliance, although he has always been a supporter of the Democratic party, announces his purpose in this campaign to work for Hoover, "because" with an ostensibly dry plank in its platform it nominated as standard bearer a vociferous wet who repudiated the dry program promptly after he had the nomination in his pocket. "Why," as a minister, do I depart from my usual custom and publicly express a political opinion," he asks, and answers thus: "First, as a Christian, I have a conscience; secondly, as a citizen, I have a duty. Neither of these can be evaded when a great moral issue is at stake."

The word "wine" occurs in the Bible 261 times. In 151 instances a warning is conveyed; in 71 both warning and reproach; in 12 places wine is referred to as "poisonous and venomous." In five texts wine is absolutely prohibited.—Exchange.

Among the subjects brought before the League of Nations is the inseparable triad of drugs, vice and liquor. No nation showed any sympathy with the hideous "White Slave Traffic." But when it came to drugs and liquor some looked through a golden haze. Sir Philippe Roy, Commissioner-General for Canada in Paris, Canadian representative to the League of Nations, opposed a request for an inquiry to be made by a committee of experts into the question of alcoholism. The question will come up again in September and will not be turned

## Boils Caused Terrible Suffering

Miss M. E. Pollock, Elgin, N.B., writes:—"I suffered so terribly from boils, on the back of my neck and on my arms, that at times I was forced to leave my work. When I would get some of them healed there would be more break out in another place."

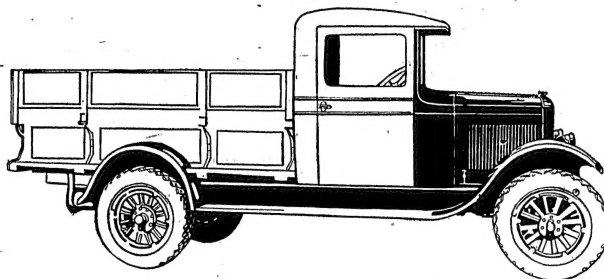

"I was told that my blood needed purifying and to use

## RUST RESISTING WHEAT FOR WEST IN THREE YEARS

Winnipeg, August 3.—Within three years Western Canada should have a rust resistant wheat which will grade as high as the varieties now being grown, according to L. H. Newman, Dominion cerealist, who arrived here from Ottawa today.

Mr. Newman is spending a month or more in the west, inspecting the work of the Dominion rust research laboratory at the Manitoba Agricultural college and the various Dominion experimental farms in the west. He will also visit farms where rust resistant grains are being produced for experimental purposes.

The Ottawa official announced that the work at the research laboratory here would be extended within a year. An expert cytologist, Miss Hollingshead, formerly of Saskatoon, Saskatchewan, and now at Berkeley college, California, has been added to the staff, he said, and will assume her new duties next spring.

The appointment, Mr. Newman said, is the first of its kind in Canada, marking a distinct advance in the linking of pure scientific research with the practical purposes of agriculture.

# HOOVER TELLS OF HIS PLANS IF PRESIDENT

Stanford University Stadium, Cal., Aug. 13.—Herbert Hoover Saturday enunciated the principles upon which he asks the United States people to the White House as Republican president.

He reiterated his stand against repeal of the Eighteenth amendment and the rigid enforcement of prohibition; he proposed farm relief through the three-fold plan; he declared for religious tolerance and proclaimed the direction of economic progress in support of the moral and spiritual progress of the nation.

Hoover spoke on the campus of the university where he lived as a student. More than 75,000 people were gathered in the stadium, almost filling it to capacity.

Senator George A. Moses, of New Hampshire, notified the candidate. Governor Young introduced Moses, who in a space of less than ten minutes, delivered the message of the Republican convention and bade Hoover to go forth upon "the veritable crusade" which he had been chosen to lead.

Hoover declared that he would use the influence of his office to give the farmers the full benefit of the Republican tariff policy.

This was the first phase of his far-reaching program. The second was that for cheaper water transportation through water outlets to the Atlantic from the Great Lakes and the Gulf of Mexico via the Mississippi. The third proposition was for federal aid to farmer-owned and farmer-controlled corporations to take care of crop surpluses.

The nominee declared for foreign policy looking toward the peace of the world, but with the maintenance of the navy adequate to national defence.

## MAN AND DOG RECEIVE AWARDS FOR HEROISM OF LAST WINTER

Prince Albert National Park, Sask., Aug. 11.—Two heroes, a man and a dog, received awards for bravery at the opening of Prince Albert National Park Friday. The man was Bern Johnson, of Big River. The dog was "Prince". To the man, Premier MacKenzie King presented the Humane Society diploma. "Prince" received a handsome new collar, the gift of the Big River Dog Derby association. The heroic deed which was accorded public recognition, goes back to the cold and snow last winter in the far north country. One hundred miles of Big River, the end of snow, Miss Rose Littlewood, contracted appendicitis. It was imperative that she be moved to the hospital without delay, and Johnson, with his team of huskies, undertook the task. "Prince" was the leader of the team.

With the sick woman on the sled, the hundred mile drive through snow and cold started. The elements were unkind. The storm attained the proportion of a blizzard. Finally, even Johnson, experienced as he was in the difficulties of the northern trail, lost his way. For hours he made vain efforts to locate it. Then he fell back on "Prince". "Prince" led the party to Big River safely, and the life of Miss Littlewood was saved.

500 COMBINES TO AID IN HARVEST

Five hundred combines will be operating in Southern Alberta grain fields during the coming harvest compared with 150 a year ago, according to estimates made by the Calgary branch of The Bradstreet Company. Record sales have been made by implement firms in combines this year and other farm implements, particularly tractors, have shown a big advance, states the latest report of the implement agency. Some dealers report an increase of 50 per cent compared with last year.

Automobile dealers and dealers in accessories and tires state that business in their line has been exceptionally good and increases of 50 per cent are reported over last year.

General wholesale trade is considered as very satisfactory, fruit, grocery and confectionery houses being very busy and reporting increases over last year of 10 and 15 per cent. Wholesale boot, shoe and harness dealers and apparel lines are doing a satisfactory business, also.

Retail merchants are finding business improved, continues the Bradstreet report. A general increase of 10 per cent in city business is reported and a very satisfactory fall trade is anticipated. Collections are fair and better than last year. A general feeling of optimism, better than for many years, exists throughout the district in nearly all lines as trade has continued throughout the summer months in an unusual volume.—Calgary Herald.

## POSSIBILITY OF SETTLING SOON REMOTE

Drumheller, Alta., Aug. 13.—The miners of Wayne carried out their intentions, and the suspension of work at all the Wayne mines is now in effect.

The men squared up their places Saturday, carried out the tools of their trade and walked out as a protest against the proposal to install the 1½ inch screen in the mines and the failure of the operators to recognize one particular union. Monday will see an idle camp at Wayne, unless the operators and the committee appointed by the miners can arrive at a settlement beforehand, which is a most remote possibility. The miners still stand by the claims which have been published in the press, and claim that the men are 100 per cent solid behind the action taken at Friday evening's vote and the subsequent meeting, which called for suspension of work, and voiced absolute opposition to the recommendation of the cancellation board, in which their representative concurred.

## FOX SHOW TO BE HELD IN CALGARY

The first fox show to be held in Alberta will be staged in Calgary by the Alberta Provincial Silver Fox Breeders' Association some time in November. It was decided Wednesday at a meeting of the association in the Board of Trade rooms.

The show will be open to breeders throughout the Dominion and it is expected that many champion animals will be shown. Plans are now being made by the association to promote the exhibition, and the directors' board was elected to form a special show committee with H. S. Oulton, of Calgary, as chairman.

## RUSH FOR ALBERTA LAND MAINTAINED

Edmonton, Alta., Aug. 10.—Surpassing all previous records made in filing of land in the Edmonton district, filings this week reached a new high total with 84 homesteads and five soldier grants taken out.

For the same period last year there were 34 homesteads and two grants filed upon, while for the week previous this year there were 83 homesteads and four soldier grants taken up.

Officials at the local office are very optimistic regarding the continuance of the high filing returns and are confident that the filings of second home-

steads where the necessary conditions prevail are responsible for the heavy land filing rush that has been experienced here of late.

Land in the Edmonton district is being regarded as at a premium by settlers, and the demand that has been in evidence of late has never been duplicated since the years previous to the war, officials stated.

## THE GATHERING OF THE CLANS AT BANFF

Everything is in readiness for the great Highland Gathering and Scottish Festival at Banff, August 31st to September 3rd, 1928. A fine array of pipers, Highland dancers and athletes will perform in the beautiful natural arena, the grounds of the Banff Springs Hotel, which have been specially prepared for the gathering. For four days Banff will be the meeting place of the descendants of Scotland's most famous Clan Chieftains, and of her renowned exponents in hammer throwing, putting the shot, tossing the caber, etc.

On Sunday, September 2nd, a public religious service will be held at St. Dunstan's Church, Banff, when Dr. Charles W. Gordon (Ralph Connor) will preach the sermon and the old Covenant hymns will be sung. In the evenings Scottish concerts will be held, in which a number of celebrated artists will take part. Burns' cantata "The Jolly Beggars" will be presented, and the revival of this famous cantata is creating considerable interest. The four day festival, will, therefore, be national in its character, and the scenes enacted at the great Highland gatherings in Scotland will be enacted at Banff.

## FIRST CONTINGENT OF HARVESTERS AT 'PEG

Winnipeg, Aug. 13.—More than 1,000 harvesters from the maritime provinces, the vanguard of the army that is coming west to help garner the 1928 grain crop, arrived here Sunday. Their stop-over in Winnipeg was of short duration and within a few hours the majority were on their way to various distributing centres throughout the prairie provinces.

Tomorrow will see the main rush of harvesters influx, with about 5,000 expected here within the next twenty-four hours. Agents from Saskatchewan and Alberta are here assisting local officials in the distribution of the workers.

## BRING BOYS' BODY BACK TO EDMONTON

After a search lasting almost 24 hours the body of Albert Jeandron, who was drowned while swimming on Wednesday afternoon, was recovered at Alberta Beach at 3 p.m. Thursday. It was found by means of grappling irons in about seven feet of water some twenty yards from the diving board toward which he was swimming when he suddenly disappeared, apparently the victim of a sudden cramp caused by a heavy meal which he had eaten a short time before entering the lake for a final swim before he returned to Edmonton with his parents.—Journal.

## 58 NEW FARMS AT VERMILION

So great has been the success of the Clan Donald on the settlement at Vermilion that a large extension to this scheme is contemplated by the Canadian Pacific railway, and tenders have been called for the building of cottages and barns on 58 additional farms in the Vermilion district. It is understood that the total cost of the erection of these buildings will amount to \$30,000. Wells will be

drilled, and the total cost of the development will run well over the \$100,000 mark.

Arrangements have been made for the placing of families on these holdings. The family heads have been working on Alberta farms for some time on probation, and they will take up occupancy of their new farms early in the spring.

## ALBERTA ORGANIZATIONS WILL SEND DISPLAYS TO TORONTO

With part of the space formerly occupied by the Women's Institutes of the Dominion at the Toronto Exhibition given over to the National Council of Women, the Victorian Order and the I.O.G.E., other organizations are busy making arrangements to send displays this year. From the Alberta W.I. will go Mrs. J. A. Rodell of Wetaskiwin and her team of three girls who so capably won the competition arranged among girls' clubs in the province this year. They will give their demonstration on dairying, livestock and wheat every day at the Canadian National Exhibition. Mrs. J. McGregory Smith of Edmonton, who is returning home from Scotland, will be in Toronto to oversee the Alberta arrangements. The Alberta Institutes are financing the Wetaskiwin team, and the Canadian Pacific railway is conveying them to Toronto.

At a committee meeting of the Local Council of Women, of Calgary, it was decided to send an exhibit valued at \$200.

Through the kindness of Mr. Norman Luxton, a particularly pretty display of Indian bead work was secured for the collection. Small pieces of beautifully done work will add color and contrast to the display, which includes as well a square dress, heavily embroidered. Through the assistance of the Arts and Crafts club, which is affiliated with the Local Council, an excellent display of water colors, done by Calgary artists was added to the collection, as well as several other pieces.

This is the first national display attempted by the council, but with the contributions which are being sent in from all over Canada, it gives every promise of proving most interesting. A large place has been set aside in the Women's section of the exhibition, and here Calgary's share will find its place.—Journal.

## ARE OFF FOR CANADA WITH A PAPER BAG

Liverpool, Eng., Aug. 10.—A contingent of 800 miners, each carrying a paper parcel or suitcase, sailed for Canada today, the first of 10,000 volunteers from among the unemployed in the mining districts for agricultural work in the Dominion.

The men who started today hailed chiefly from the north of England and the south of Wales and they set forth on their journey in a holiday spirit.

## NOTED EDMONTON LAWYER IS DEAD

Edmonton, Aug. 11.—C. C. McCall, K.C., one of Western Canada's foremost lawyers, died at his home here late Friday afternoon following an extended illness. Mr. McCall who came west in the 80's, participated in many famous cases during his long active career. He was the author of numerous articles in scientific and legal periodicals. He was 70 years of age.

## RECENT BRIDEGROOM DROWNS AT BASHAW

Bashaw, Aug. 11.—An especially tragic accident took place here late yesterday afternoon when Victor Harrington, young farmer of this district, who was recently married, lost his life in Red Deer lake. Along with a large party of berry-pickers, included in which was his recent bride, he went in for a dip in the lake. Getting out of his depth he called for help. The only man who could swim at all was Abel Schultz who, although far from an experienced man in the water, made several gallant attempts to rescue the drowning man, but without success.

## ONTARIO PLACES BAN ON FURTHER MARATHON DANCES

Toronto, Aug. 8.—The provincial cabinet this afternoon made further marathon dancing in Ontario an impossibility by passing an order-in-council declaring it to be a professional event or exhibition. This move was made on the recommendation of Attorney-General Price.

No marathon dance can now be held without the backers first appearing before the Ontario Athletic Commission and securing a permit. This will be refused, it is understood.

## CHINESE DROWNED IN COLLIERY PIT

Camrose, Aug. 11.—The water-filled surface pit of the abandoned Roundhill Collieries' coal mine at Roundhill, Alberta, claimed the life of Mah Poon late Friday afternoon. Mah Poon, familiarly known as "George", opened a restaurant called the "National hotel" in the hamlet about 16 miles north east of Camrose.

## POTATO BUGS APPEAR

The deadly potato bug, familiar to many former Ontario residents, who have spent tedious hours ridding gardens of these pests, has made its appearance in Edmonton, according to information given the Journal Thurs-

# HUDSON Patents F-Head Motor

The U.S. Patent Office has granted patents to the Hudson Motor Car Company on the "F-Head" high-compression motor. The patent—No. 1,656,051, relating to internal combustion engines—covers the entire arrangement of valves, spark plugs and combustion chamber.

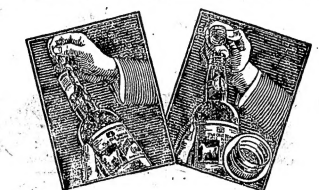

With the new patented design Hudson motors now are built with a compression ratio of nearly 6 to 1—or 20 per cent above the average—with correspondingly high standards of acceleration, fuel economy and power. It is practically impossible to make the motor knock under even the most adverse operating conditions. The motor is the liveliest, most powerful and economical Hudson has ever built.

CALGARIAN WINS  
ALL-COMERS' EVENT

Long Branch, Ont., Aug. 11. — Sergeant F. Ho Lem of Calgary, Alta., has won the all-comers' aggregate at the Ontario Rifle Association meet with a total score of 317 and will receive the O.R.A. silver medal and \$25 for first place.

WETS WIN IN PONOKA  
BASEBALL TOURNAMENT

Wetaskiwin won the baseball tournament at Ponoka last week, with Goldworthy hurling both games. New Norway won from Bashaw, Wetaskiwin defeated Ponoka 6-2, Dittburner hurling for the great platoon area, extending from Texas and Central Colorado to Montana, was noted yesterday by the crop recording board of the Department of Agriculture, which forecast yields per acre about four per cent above the average of recent years.

HOLE-IN-ONE FOR PREST

W. Prest, manager of the local branch of the Bank of Montreal, made a hole in one on the local course Thursday of last week, the distance being 205 yards. This is the second time this has been made, George Wiseman having performed the feat last year.

U.S. FORECAST IS OF  
LARGER GRAIN CROP

Washington, D.C., Aug. 10. — A marked improvement in crop prospects during the month of July, particularly in the great plains area, extending from Texas and Central Colorado to Montana, was noted yesterday by the crop recording board of the Department of Agriculture, which forecast yields per acre about four per cent above the average of recent years.

Nearly all the grains and especially wheat and corn shared in the general advance due to excellent heat in recent sections. The corn forecast of 3,030,000 bushels, based on conditions August 1, is an increase of 11 per cent in the department's predictions of 2,736,000,000 bushels on July 1.

The wheat crop "has demonstrated a remarkable ability to overcome a poor start and produce a large crop," the report said, estimating the combined production of winter and spring wheat at 83,000,000 bushels compared with the July 1 estimate of 80,000,000 and last year's harvest of 87,000,000.

NAME DELEGATES  
FOR WHEAT POOL

Announcement was made Thursday of the election of 70 Alberta Wheat Pool delegates, the men who will be called upon to choose the pool directors. Thirty-five of the delegates were elected by acclamation. In the remaining 35 subdistricts the election of delegates was sharply contested.

Pool officials state that the vote in the subdistricts, where the nomination of two or more candidates made the casting of ballots necessary, indicated that keen interest was taken in the election.

Altogether 11 nominations were made to the head office during the period prescribed by the pool bylaws.

When the annual meeting of the Alberta Wheat Pool is held in November, the 70 delegates whose election was announced yesterday, will choose the seven directors who will guide the destinies of the pool during the ensuing year.

The convention opened Friday evening with divine service in the church, when Rev. O. H. Miller, Wetaskiwin, in a fitting opening message, reminded of the voice of the Lord talking to the human being, and the need to listen. Mr. Miller also spoke on the subject "Live to Serve."

FEES ON MUSKRAT  
EXPORTING ALTERED

Fees charged for the capture of live muskrats for propagation purposes and for permits to export live muskrats have been revised, it is announced in the current issue of the Alberta Gazette. In future a charge of \$120 per dozen, or fraction thereof, will be made for permits to export live muskrats, for propagation purposes a fee of 20c each, minimum \$5, will be levied. A maximum of 100 animals is fixed for each permit. Land owners and lessees wishing to transfer live muskrats from one part of their land to another may obtain a free permit for this purpose.

VOTERS LIST 1928-1929

Notice is hereby given that the List of Electors for the City of Wetaskiwin and the Wetaskiwin School District has now been prepared and copies posted up in the following places: City Offices, Bank of Montreal, Imperial Bank, Star Store, Wm. Gibson's Barber Shop and the U.F.A. Store.

All those who are qualified and entitled to vote at the Municipal Elections of the City of Wetaskiwin are requested to examine the list at the above mentioned places. Any whose name does not appear or any person whose name appears and who challenge or objects to the name of any other person appearing on the List may give notice to the undersigned Registrar to have the List amended.

Such Notice must be given on or before the 14th day of August. The City Council will sit as a Court of Revision on the Voter's List on Tuesday the 28th August, at 8 p.m., in the Council Chamber, when the list will be finally revised.

Given under my hand this 31st day of July, 1928.

J. E. FRASER,

Registrar of Electors for the City of Wetaskiwin.

NOT INSURED; LOSE HEAVILY  
Coronation Review: A terrific storm accompanied by hail and rain, passed over this district last Tuesday night. No hail damage is reported here, but a strip north of Bulwark and Brownfield had damage done to crops to the extent of 100 per cent. It is understood that the majority of farmers throughout the vicinity did not carry insurance, so the loss will be heavy.

### 52 WORKMEN HURT

BY NAILS IN JULY

Edmonton, Aug. 10. — Fifty-two workmen stepped on, or otherwise came in contact with, protruding nails during the month of July, and thus became compensation cases. This proved to be one of the most common causes of injury during a month in which was recorded the

largest number of accidents occurring in any one month in the history of the Workmen's Compensation Board. One thousand one hundred and fifty-two workmen were injured during the month of July, 236 of which were hurt in the mines and the balance in other industries.

Figures covering the first seven months of the present year reveal the fact that 7,107 workmen have

been injured in that period with 33 of the accidents proving fatal. Two interesting features of the period under review are the number hurt by protruding nails and those whose disability was the result of infection. One hundred and ninety-three blame nails for their injury and 121 have become disabled through infection. In the latter cases many of the most serious disabilities have re-

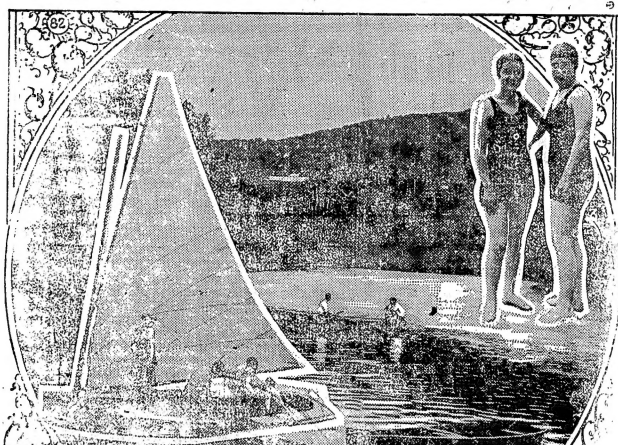

sulted from a very slight injury which was neglected and cases of death and total incapacity have resulted in some instances. And this is in spite of the fact that 2,252 first aid certificates have been issued since 1921 and every plant compelled to have first aid equipment. Members of the Compensation Board express the opinion that if workmen realized the serious consequences which are following failure to take advantage of first aid in slight injuries, they would be more careful in the care of small hurts.

LUTHER LEAGUE HAS  
DELEGATES FROM PROVINCE

Czar, Aug. 11.—The Alberta District Luther league of the Swedish Lutheran church held its annual meeting at Czar in the Emmanuel Lutheran church. Fine weather favored the convention, which was much enjoyed by visiting pastors and delegates as well as a great number of Scandinavian people from Czar and places nearby.

The convention opened Friday evening with divine service in the church, when Rev. O. H. Miller, Wetaskiwin, in a fitting opening message, reminded of the voice of the Lord talking to the human being, and the need to listen. Mr. Miller also spoke on the subject "Live to Serve."

### THE LURE OF THE LAURENTIANS

(1). A section of the North River at Piedmont. (2). Off for the day on the wings of the cool breeze. (3). En-

joying the best sport of all.

The Spring Floods in the Laurentians have in no way affected the fishing in that district, sportsmen returning to Montreal have stated, adding that the fish are biting better than previous years and that the catch has exceeded their past records.

The Laurentians, so popular during the winter for skiers, enjoy in reality a year round favour in the eyes of holiday hunters, and have at every season some particular attraction to offer. At present the fishing is bringing many sportsmen up into the mountains, and as usual this is proving to be of the best.

The Mont Tremblant district is perhaps the most attractive and interesting in the Laurentians. This mountain was known to the Indians as "Manitou Ewrit-Saga" signifying, the "Mountain of the Dread Manitou," and the legendary dominating power of the range, whose wrath the whole district trembled.

There are beautiful lakes not far from Mont Tremblant, Lake Gauthier and Lake Outremont, where hotel and summer cottages have been built and good fishing abounds. The district north of Mont Tremblant is a pathless wilderness stretching as far north as the Arctic Circle, with no settlements whatever. The only human habitations are those of lumbermen and hunters, who canoe up the Devil's River and the intervening lakes during the fall of the year, making their permanent camp about one hundred miles north of Mont Tremblant.

Access to this recreation land is provided by the Canadian Pacific Railway from Montreal to such places as Shawbridge, Piedmont, Ste. Marguerite, Val Morin, Ste. Agathe, Ivry, St. Paulin, Labelle and Mont Laurier, and the end of the line. The line running north from Ottawa to Maniwaki is well liked and carries many anglers northward, the capital for a spring vacation with re-

(This advertisement is not published or displayed by the Liquor Control Board or the Government of Alberta.)

## FLORAL FESTIVAL TO BE HELD IN CALGARY

Western Canada's greatest Flower Festival will be held in Victoria Pavilion Annex, Calgary, Tuesday, Wednesday and Thursday, August 28, 29 and 30, and the Calgary Horticultural Society, which is sponsoring the big flower and vegetable exhibition, is inviting every town and every district in Alberta to be represented by a display.

Last year the Festival included exhibits from Beaver Lodge, Edmonton, Strathcona, Ponoka, Red Deer, Olds, Hanna, Drumheller, Brooks, Medicine Hat, Claresholm, Lethbridge, High River and other places. It was the most representative Alberta horticultural exhibition held up to that time. This year the indications are that the range of the collections will be still larger.

The purpose behind the Festival is the practical education of the people of Alberta and visitors to Alberta as to the rapidly increasing list of flowers, fruits and vegetables which may be grown successfully in this province. The varieties produced in some districts amaze those who see them, and

as a matter of record, a revolution in Alberta's horticultural status has taken place within the last twenty years and further changes for the better are taking place year after year.

This is to be taken as an official invitation to this district to be represented at the Calgary Flower Festival, August 28-30, and those who are interested are invited to write to C. A. Hayden, president of the Calgary Horticultural Society.

## STEEL RUSHED FOR NORTHERN RAIL EXTENSION

Edmonton, Alta., Aug. 4.—Steel for the extensions to the Edmonton, Dunvegan and British Columbia and Central Canada railways' extensions is being rushed from Vancouver to this city and will be transferred immediately to rails running North, according to word received in this city.

The first shipment of the steel has made necessary a train of 30 flat cars each carrying 150 rails, nearly 30 miles of rails, weighing about 3,000,000 pounds. The rails are of the heavy 80-pound type.

The rails were shipped from Philadelphia by way of the Panama Canal and the trip was made in record time. Work on the two extensions, from Wembley to Hythe and from White Lake to Waterhole, is being rushed so that they will be ready to handle the 1928 crops.

## POLICE CASE AGAINST LONDON SPIRITUALISTS

London, Aug. 26.—Sir Arthur Conan Doyle and Sir Oliver Lodge, leaders in their respective fields of literature and science, appeared as voluntary witnesses in Westminster police court, London, England, to defend spiritualism against the charges that it is fortune-telling for money and therefore illegal.

The case was a test one, the police against Mrs. Clare Cantion, whom they accused of "having professed to tell fortunes." Miss Merce Phillimore, secretary of the London Spiritualist Alliance, of which Mrs. Cantion is president, was accused of aiding and abetting her.

Sir Arthur, testifying for the defence, said that the purpose of a spiritualistic seance was double.

"The higher purpose," said Sir Arthur, "is the wish to strengthen what we regard as the central core of all religion—the way in which man is carried on his feet. The lower purpose is to get in touch with our loved ones who have passed on and investigate various phenomena.

"The alliance is not concerned with telling fortunes."

Cases against both the women were dismissed on the ground that they were first offenders. But Mrs. Cantion was ordered to pay \$50, costs of the prosecution, and Miss Phillimore \$100.

## NERVOUS SYSTEM WAS NEARLY WRECKED Could Not Sleep

Mr. E. M. Akerman, Melville, Sask., writes:—"At times I was unable to do work of any kind."

"My nervous system was nearly wrecked; I could not sleep nights, and was troubled with cold sweats, and was compelled to lie on a sofa a good part of each night."

All medical aid seemed of no avail, so by chance, and the best of good luck I tried a box of your well known

MILBURN'S HEART NERVE PILLS

and after taking four boxes I can say that they did all you claim for them.

"I am only sorry I did not try them before and escape lots of illness, and be money in pocket, but I did not believe in patent medicines, but I have since convinced myself that one should get the best on the market to get the best results. I will always recommend your medicine to all suffering friends, as I know they too will get the results they wish."

Price 50c. per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## MILLET LOCAL NEWS

Mr. Carl G. Orr of Edmonton, paid a visit to his brother south of town on Monday.

Miss Gwen Christie has accepted a position on the teaching staff of the Wetaskiwin school.

Mr. Hillman was off duty at the Post Office for a couple of days, owing to an injury to his foot.

Miss Evelyn Christie returned from Banff on Monday, where she had been spending a week with friends.

Mr. Henry Moonen returned to Vancouver and other coast cities, with a party of friends from Edmonton.

Miss Alva Wolf spent a few days last week the guest of her uncle and aunt, Mr. and Mrs. Vanastine, Edmonton.

A parcel of 37 acres of the townsite property, east of the railroad, has been purchased by Mr. Erdman Suter of Leduc.

Dr. Dan Weston, of Akron, Mich., accompanied by Mrs. Weston, arrived on Saturday for a visit with his sister Mrs. Ed. Furlong.

There are some snow thistles in evidence around town, and citizens should see to it that they are pulled and destroyed by fire.

Mr. and Mrs. Elvin Wolf of San Francisco, and Mrs. A. Keller and son of Spokane, are guests at the home of Mr. and Mrs. Grant Wolf.

Mr. G. A. Wagner was visiting friends in Edmonton on Monday, and while there went out to Clover Bar to see the demonstration of the Warner weed destroyer.

Mrs. Henry Brissard of Millet, is staying with the Rev. A. B. and Mrs. Lane, at Golden, B.C., enroute home from the coast cities, where she has spent the last month.

Evening service in the United church was resumed on Sunday, the pastor, Rev. L. R. Macdonald, having returned from holidaying at Gull Lake for the past three weeks.

Mrs. Thos. Kerr of Vancouver (a former resident of Millet), is the guest of Mr. and Mrs. H. Dowler of Malton, and paid a short visit to Mr. G. A. Wagner, Plety Knob farm.

Mrs. Moore, with Miss Molly and Master George, arrived last Thursday to join her husband, Mr. T. Moore, of the Beaver Lumber Co. They have taken up residence on the south side.

Mr. and Mrs. L. McDonough and family, Mr. and Mrs. Trotter, Mr. Forrester and Miss McDonough, of Lemmings, were guests at the home of Mrs. McDonough, Sr., of Hay Lakes district, on Sunday.

It is reported that the Imperial Oil Co. have purchased the lots formerly occupied by the A. P. Mitchell block and Vic's Garage, and will open up an up-to-date service station. Mr. Jas. Carney is the local agent for the Imperial Oil Co.

Sunday last, Mr. and Mrs. Paul Dickau had a host of friends and relatives as their guests: Mr. and Mrs. Adams and family, Fort Saskatchewan (Miss Helen Adams was the former teacher at Coal Lake); Mr. and Mrs. Joe Lentz and Ben Dickau, Edmonton; Miss Minnie Dickau, Chicago, who is taking a course at the Baptist College, Chicago, and will again return to resume her studies.

## MILLET WOMEN'S INSTITUTE

The regular meeting of the Women's Institute was held at the home of Mrs. Robert Cohen. There were twenty-seven ladies present. The roll call was answered by each member giving her favorite hobby.

A very interesting paper prepared by Mrs. Carl Regne, on "Why Women should have a Hobby," was read by Mrs. V. C. Rowley.

Dainty refreshments were served. The next meeting will be held at the home of Mrs. J. O. Anderson, on Wednesday, Sept. 12.

## Obituary

### ALICE BRISSARD

The death occurred on Wednesday of last week, of Alice, twelve year old daughter of Mr. and Mrs. Joseph Brissard. The deceased girl became suddenly ill, and following the doctor's visit, she was taken to the General hospital, Edmonton, where she passed away soon after. The funeral was held from the Roman Catholic church in Leduc on Friday at 2 o'clock, Rev. Father P. W. McQuaid conducting the services.

There remains to mourn her loss—her parents, two sisters, Annie of Edmonton, and Clara, three brothers, Richard, John and Charles. There were many floral tributes and a large attendance at the funeral. Interment was made in the Leduc Roman Catholic cemetery.

## MY CITY

My city is where my home is founded, where my business is situated, where my vote is cast, where my children are educated, where my neighbors dwell, and where my life is chiefly lived.

It is the home spot for me. My city has a right to my civic loyalty. It supports me and I must support it.

My city wants my citizenship—not partisanship; friendliness—not selfishness; co-operation—not dissension; sympathy—not criticism; my intelligent support—not indifference. My city supplies me with law and order, trade, friends, education, recreation, and the rights of a free-born Canadian. I should believe in my city and work for it. And I will.

—The City Builder.

## HOME BOY!

"That's our general superintendent—son of the president—began at the bottom and worked up—started in as an oiler, right after he left college."

"When was that?"

"Oh, he graduated last June."

## Announcing the NEW UTILITY TRUCK —another Sensational Chevrolet Value 4 Speeds Forward • 4 Wheel Brakes

NOW Chevrolet presents the New Utility Truck—a low-priced haulage unit embodying every feature of advanced engineering developed through years of experience in commercial car-building and proved by exhaustive testing on the General Motors proving ground!

Typical of the progressive design embodied in this sensational new truck are a four-speed forward transmission, powerful non-locking four-wheel brakes, full ball-bearing steering mechanism, front shock absorber springs, air-bound seat cushions and channel front bumper. In addition, it offers all those basic features which have been so largely instrumental in Chevrolet's tremendous success as the world's largest builder of trucks—rugged rear axle with one-piece banjo-type housing, semi-elliptic springs set parallel to the load, completely enclosed valve-in-head motor with air cleaner, oil filter and positive action vane type oil pump, thermodynamic control of water, low loadings, height—generous road clearance and countless other features of comparable importance.

Visit your Chevrolet dealer and get a trial-load demonstration of this remarkable new truck! It has been developed to meet the modern conditions of business transportation and body types are available for every type of business. C-4-4-1200

J. N. SCHREIFELS  
Phone 123 Wetaskiwin, Alta.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

gallon of milk, and all societies arrange for scientific advice on rationing, to be available for the members. The recorders may not spend the night on the farm.

The Ministry of Agriculture makes a grant to the societies of £3 for each herd, and the cost to the members varies between 2s. 1d. and 9s. 6d. per cow, but the higher figures are being considerably reduced.

During the 12 to 14 years that the movement has been in progress in this country, there has been a steady increase in the yield per cow—the average for the whole country being 900 lbs. per cow higher than 14 years ago, the average yield for England and Wales now being about 7,100 lbs. per cow.

Milk recording started here, officially in 1914, with societies—244 members and 7,330 cows. It is now represented by 49 societies, 5,174 members and 155,000 cows. The Ministry of Agriculture also publishes an annual register of dairy cattle, which gives details of the milk yields of 7,500 of some of the best dairy cattle in this country.

In 1920, the various societies decided to form a Central Council, each society electing one or two delegates. The Council meets four or five times a year and assists in synchronizing the work of the societies.

It is also organizing an important dairy herd competition for England and Wales each year, in which about half the total marks are awarded for quality and quantity of milk. The winning herd in 1927 gave an average yield of 10,539 lbs. per cow. A challenge trophy is also offered each year, which endeavors to select the most prolific dairy cow in the country. It is awarded to the cow giving the highest average yield in three successive years; she must not be more than 8 years old at the end of the test, and have produced one calf each year; the winner of the trophy in 1927 having given an average yield of 22,160 lbs. for each of the three years.

He further states, "the milk recording movement includes the most advanced and up-to-date milk producers in every country—men who are ready and willing to embrace and act upon all that science can discover; who are now making a great endeavor to supply the best and purest milk and to eradicate the possibility of disease, and, if any great advance is to be achieved, it is to be achieved by men made in the betterment of our milk supply, it is to the recording movement that we must look."

"AS A LITTLE CHILD"

How we love in thought to picture That fair scene in Gethsemane, Jesus with the little children Gladly clustered at His knee.

With their clear eyes looking upward To the gentle face above, Smiling down a tender blessing From His Christly heart of love.

In His arms so safely folded, Naught they know of doubt or fear, Just a happy, full surrender To His friendship, sweet and dear.

And we seem to hear Him speaking Once again those words of old, Bidding us in heart be childlike, Thus to gain the heavenly fold.

Let us then like little children Seek our Father's loving arms, And in simple faith and gladness, Know we're safe from all that harms.

—Ella A. Stone, in Christian Science Sentinel.

The Tunney-Heenev Championship Boat picture will be seen at the Angus Theatre on Thursday, Friday and Saturday, August 23, 24 and 25.

## HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Mulling, Farmer, Alta., writes: "I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## Neighborhood NEWS

## HILLSIDE

The Junior U.F.A. will hold their regular monthly meeting in the school grounds on Friday evening, the 17th. Mr. W. Webb and F. Ganski were Edmonton visitors Monday.

School will reopen on Monday, August 27th. Parents are asked to co-operate with the teacher and see that their children, especially beginners, are there for the opening day.

A grand dance will be held in the school house on August 31. Particulars later.

Miss Barbara Marr entertained a number of the younger set at a most enjoyable dance Saturday evening.

This week will see a number of blunders at work in the fields. Mr. H. Ayers has completed the building of the chimney and moving the furnace at the school house.

Miss Margaret Young is recovering from an attack of the mumps. Matt Hemphill had the misfortune to lose a valuable mare in his lough.

## PICNIC AT NORTH PIGEON LAKE

A big community picnic will be held at Silver Bay Park, (Doyler's) on Wednesday of next week, when a full program of sports will be run off. There will be a dance in the evening, with Scott's Orchestra furnishing the music.

## PIGEON LAKE NEWS

Mrs. Hobart Dowler of Silver Bay Lodge, entertained at the tea hour on Friday afternoon in honor of her house guest, Mrs. Thos. Kerr, Vancouver.

Mrs. Kent and son Adrian arrived at the lake last week, and have taken a cottage for the remainder of the month.

Mrs. Elsie McCracken and children of Calgary, leave for home early next week, after spending the past two weeks in the Osceola cottage.

## MA-ME-O BEACH, NOTES

The large cottage of Alderman Gothard is occupied by Mrs. Fowler, Miss Meta Fowler, Miss Tessa Fowler and Miss Eva Hopkins, of Edmonton, who have as their guests Mrs. McLean and family of Edmonton.

W. A. McAllister and family are coming to the beach for a couple of weeks and will occupy one of the cottages of Ald. Gothard.

"Duke" Keats, wife and family, of Edmonton, arrived on Sunday to spend their vacation in T. C. Rubbra's cottage.

The rain of the past week has made it rather unpleasant for the campers at Ma-Me-O Beach, but it has not dampened their spirits.

The family of E. T. Williamson, who have been holidaying at their cottage, returned to Wetaskiwin the first of the week.

## A Blue-White Diamond

Positively the  
BEST GIFT  
of all

Size alone does not determine the value of a diamond. Color and brilliancy are the most important factors in this matter.

Our selection of diamonds mounted in the latest styles of settings, are all chosen with one object in view

## McCormick-Deering

Combines the Best  
Features of the World's  
Greatest BINDERS  
With Added ImprovementsThe Best  
Features of  
Both the  
McCormick  
and  
Deering are  
Incorporated  
in This  
New Binder

You are beginning the harvest of your year's work, and the results are going to constitute your living until the next season rolls around. It is unwise economy to depend upon an old worn-out binder that may break down some sunny afternoon when you are just about half through.

Start work this year with a new McCormick-Deering binder and learn what a big improvement has been made in these machines since you bought your last harvester. The new McCormick-Deering is a distinct step ahead in binder manufacture. It is fitted with ball and roller bearings at every point of excessive wear, and is equipped with improved features of construction that make the harvesting of your crop a real pleasure as well as an economy, when you consider the time and grain you will save.

## OUR 10-FT. TRACTOR BINDERS

Make it possible for one man to cut more grain than two men with 8 ft. horse-drawn binders.
